OVERVIEW

Through my pharmacy education and internship experience in hospital pharmacy, community pharmacy, and the pharmaceutical industry, I have gained knowledge and practical experience in pharmaceutical services, quality system, laboratory analysis, documentation, data management, teamwork, communication, and problem-solving. I am eager to continuously develop myself in the pharmaceutical field, embrace new challenges, and contribute to maintaining high standards of quality. I am confident in my ability to adapt quickly, learn new things, and work collaboratively in a dynamic environment.
