ABOUT

Licensed Pharmacist with hands-on exposure in pharmaceutical Research & Development and Analytical Development, particularly in dissolution testing, stability study documentation, HPLC analysis for assay and impurity evaluation, analytical method verification, raw material evaluation, and COA review. Familiar with GMP documentation, data integrity, system suitability, and analytical reporting to support product development and quality compliance. Experienced in preparing analytical reports, monitoring product quality data, managing reference and working standards, and supporting audit-ready documentation. Basic understanding of analytical method validation parameters, including accuracy, precision, linearity, specificity, robustness, and system suitability. Certified in GMP, Quality Assurance, Regulatory Affairs, ISO/IEC 17025 Internal Audit, Halal Assurance System (SJPH), and BPOM/SNI-related compliance. Highly analytical, detail-oriented, adaptive, disciplined, and eager to contribute to Analytical Development activities for new and existing pharmaceutical products.
