Gg 17 RT 07 RW 04, Medini, Undaan, Kudus.
 Central Java, Republic Indonesia - ZIP 59372

SURE NAME : Priyanto
DATE OF BIRTH : June 07, 1999
AGE : 27 years old
NATIONALITY : Indonesia
SEX : Male
MARITAL STATUS : Married
BASED : Kudus Regency, Indonesia.
TOTAL WORK EXPERIENCE : 3 years – Manufacturing Industries

SUMMARY PROFILE

Chemical Engineering graduate with more than 3 years of manufacturing experience in production operations, process monitoring, production planning support, performance analysis, and cross-functional coordination. Currently serving as a Production Supervisor with hands-on experience in controlling production processes through DCS, monitoring production targets and operational KPIs, coordinating production teams, and supporting safe and stable plant operations. Proven contribution to production capacity and efficiency improvement, with a practical approach to troubleshooting, problem solving, and continuous improvement.

CORE SKILLS

- Production Operations & Operational Control
- Process & Capacity Analysis
- Process Optimization & Continuous Improvement
- Commissioning & Start-up
- Production Planning & Target Monitoring
- Production KPI Monitoring & Reporting
- Cross-Functional Coordination
- Team Leadership & Shift Coordination
- Troubleshooting & Root Cause Analysis
- Equipment Performance Monitoring
- SAP / ERP Reporting
- HSE & SOP Compliance

EDUCATIONAL BACKGROUND

University	Degree	Major	GPA	Finish
Universitas Negeri Semarang (UNNES)	Bachelor degree	Chemical Engineering	3,39	2022

- **Ungraduate Thesis** : Effect of Biochar Activation and Adhesive Type on Characteristics and Nitrogen Release of SRF.
- **Research Project** : Modification on The Synthesis of Slow Release Fertilizer Using Combined Rice and Soybean Husks.
- **Book Chapter** : Papaya Leaf Handsanitizer (PLANTIZ).
- Preliminary Design of P-Aminophenol Plant from Nirobenzene and Hydrogen Using Catalytic Hydrogenation with Capacity 2500 ton/year.

WORK EXPERIENCE

- Company : **PT. Indah Kiat Karawang, Tbk**
 Rank : **Production Supervisor**
 Work Site : BCTMP Unit, Karawang, West Java - Indonesia
 Service Period : Nov 2023 - Present
 Responsibility : **• Process Monitoring & Control:**

 - Supervise and control plant production processes through DCS to ensure safe, stable, and efficient operations.
 - Monitor production targets, operational KPIs, process stability, and equipment performance to support consistent plant performance.
 - Analyze production performance and process parameters to identify opportunities for productivity improvement and cost optimization.

• Leadership & Team Coordination:

 - Lead production teams and ensure compliance with SOPs and safety standards.
 - Coordinate with cross-functional teams to resolve operational issues and minimize downtime.

• Achievements:

 - Contributed to a 33% increase in production capacity.
 - Supported plant commissioning and start-up activities to ensure stable operations.
- Company : **PT. Ungaran Sari Garment, Tbk**
 Rank : **Staff Industrial Engineering**
 Work Site : Sewing Unit, Ungaran, Central Java - Indonesia
 Service Period : Nov 2022- Okt 2023
 Responsibility : **• Process Monitoring & Control :**

 - Analyzed production workflows and supported production planning, manpower allocation, and production reporting
 - Monitored production performance and identified process constraints affecting efficiency and output.

• Coordination and Communication:

 - Coordinate with Maintenance, Engineering, buyers, and related departments to resolve machine and production issues while minimizing downtime.

• Achievements:

 - Increased production efficiency by 8% through process improvement initiatives.
 - Reduced production downtime by 10 hours/month through effective monitoring and coordination.
