Bandung, Jawa Barat

Arie Andareza is a Pharmacist graduate from Sekolah Tinggi Farmasi Indonesia with experience in Production, Quality Control (QC), and Quality Assurance (QA). Demonstrates a strong applied understanding of GMP, GAP, and CPOB, with competency in qualitative and quantitative analysis. Detail-oriented in handling documentation in compliance with regulatory standards. Seeking to develop a career in the pharmaceutical industry, particularly in QC, QA, and production, with a strong focus on quality and continuous improvement..

EDUCATION

Sekolah Tinggi Farmasi Indonesia | *Apothecary* | GPA: 3,93 / 4,00 **2026**

- Pharmacist Profession Program, Sekolah Tinggi Farmasi Indonesia – Graduated Cum Laude
- Professional Internship Experience in Pharmaceutical Industry, Hospital, Public Health Office, Community Health Center (Puskesmas), Pharmacy, and Pharmaceutical Distributor (PBF)
- Certified Competent Pharmacist – Indonesian Pharmacy Collegium
- Indonesian Pharmacist Competency Examination (UKMPPAI): 80/100 | OSCE: 74/100

Sekolah Tinggi Farmasi Indonesia | *Bachelor of Pharmacy* | GPA: 3,45 / 4,00 **2024**

- Vice Chair, Badminton Association, Sekolah Tinggi Farmasi Indonesia
- Head of Advocacy Division, Pharmacy Student Nature Club, Sekolah Tinggi Farmasi Indonesia
- Head of Band Division, Student Choir, Sekolah Tinggi Farmasi Indonesia
- Recipient of Student Creativity Program (PKM) Research Grant – DIKTI (2023): “Nanoemulsion Characterization of Brazilin Isolate from Sappan Wood (*Caesalpinia sappan* L.)”

SMKN 7 Bandung | *Industrial Pharmacy* **2020**

- Vocational High School Graduate in Pharmacy with an average final exam score of 86/100
- Internship experience in multiple pharmaceutical industries with basic understanding of production processes, quality control, and quality assurance
- Familiar with implementing Standard Operating Procedures (SOP) and maintaining discipline and attention to detail in work
- Actively involved in internal school activities, demonstrating teamwork, communication, and responsibility skills

WORK EXPERIENCES

PT.Mersifarma TM, Sukabumi

February 2025 - March 2025

Quality Assurance

- Performed Quality Operations oversight to ensure compliance with CPOB/GMP standards and regulatory requirements through implementation and monitoring of the quality management system
- Supported internal and external audits, including gap analysis; managed CAPA processes (root cause analysis and effectiveness verification); handled product complaints and coordinated recalls in accordance with regulatory requirements
- Prepared and evaluated Product Quality Review (PQR), including trend analysis; managed Change Control (CC) through risk assessment and impact evaluation
- Controlled quality documentation to ensure data integrity and traceability; conducted Batch Record (BR) review prior to batch release
- Supported qualification (IQ/OQ/PQ), validation (process, method, cleaning), and calibration activities

PT.Marin Liza Farmasi, Bandung

Quality Control Staff (In Process Control)

August 2024 - Desember 2024

- Conducted in-process quality control during production, including sampling of bulk and intermediate products at each stage (granulation, blending, compression, coating, and stripping) to ensure compliance with specifications
- Performed physical testing parameters (weight, hardness, thickness, friability, and disintegration time) using laboratory instruments
- Accurately recorded and documented test results in batch records; monitored and documented environmental conditions (temperature, humidity, and room pressure) in compliance with requirements
- Coordinated with Production and QA teams regarding test results and deviations; identified, reported deviations, and recommended corrective actions
- Ensured production processes complied with SOP and CPOB; performed line clearance and supported process validation and equipment qualification activities

Quality Assurance

October 2019 - Desember 2019

- Monitored calibration activities of equipment, machines, and instruments in the pharmaceutical industry
- Supported qualification activities (IQ/OQ/PQ)
- Oversaw process validation and cleaning validation activities
- Maintained documentation and reporting related to CAPA processes

PT. Mitsubishi Tanabe Pharma Indonesia, Bandung

April 2019 - June 2019

Production, Packaging Staff dan In Process Control

- Prepared production performance reports, including production output, product types, and supporting information
- Performed in-process checks and evaluation of products during manufacturing to ensure compliance with quality standards
- Executed packaging operations in accordance with established procedures and specifications to maintain product quality and integrity
- Verified packaging compliance and documented packaging activities in line with CPOB and SOP requirements

SKILL

Technical / Hard Skills

- GMP / CPOB Compliance
- Quality Assurance & Quality Control as IPC (QA/QC)
- CAPA & Root Cause Analysis (RCA)
- Validation & Qualification (IQ/OQ/PQ)
- Batch Record Review & Documentation (GDP)

Analytical & Supporting Skills

- Data Analysis & Interpretation
- Problem Solving
- Continuous Improvement
- Deviation Handling & Risk Assessment
- Documentation & Reporting

Software Skills

- Microsoft Excel (Data Processing & Reporting)
- Microsoft Word
- Microsoft PowerPoint
- Data Visualization (Charts & Tables)
- Basic Digital Design (Canva / Adobe)
