OBJECTIVE

I am a fresh graduate of the Professional Pharmacist Study Program at Brawijaya University, class of 2026. During my professional internships, I gained experience in the pharmaceutical industry through inventory management, technical documentation, packaging material evaluation, and data analysis while collaborating with Production, QA, and QC teams. These experiences strengthened my analytical, organizational, and communication skills. I am eager to contribute to production planning activities, support production scheduling and inventory control, and ensure efficient production operations through accurate documentation and cross-functional collaboration.
