Surabaya, East Java, Indonesia

Apothecary graduate from Brawijaya University and Bachelor of Pharmacy from Diponegoro University with a strong interest in the pharmaceutical industry, both in product formulation and development, regulatory affairs, and product executive. With experience in formulation and practical experience in the quality control industry, supported by laboratory instrumentation skills, I focus on analytical details while implementing efficient communication and coordination. I am committed to contributing to innovative product development that is effective, stable, and compliant with GMP (CPOB) standards.

Work Experiences

PT Enseval Putera Megatrading - Malang, East Java, Indonesia

Nov 2025

Pharmacist Intern

- Conducting document screening of Purchase Orders and Invoices.
- Handling the receipt of Cold Chain Products (CCP) and studying their proper distribution methods.
- Studying the distribution flow, from receiving and storage (FIFO/FEFO) to shipping, in accordance with quality standards.
