PROFESSIONAL PROFILE

Licensed Pharmacist (Apoteker) with active STR and cross-functional experience spanning clinical, community, and pharmaceutical industry settings. Bridges deep domain expertise in drug safety, patient care workflows, and regulatory standards with a product mindset — skilled at translating clinical pain points into actionable insights. Experienced in multidisciplinary collaboration, stakeholder communication, and data-informed decision-making. Eager to leverage pharmaceutical knowledge to drive the development of healthcare products that are both clinically sound and user centered.

- Agile/iterative mindset
- Market & user research

Soft Skills

- Stakeholder communication
- Cross-functional collaboration
- Analytical Thinking
- Problem solving
- MS Excel – Data & Reporting
- Attention to Detail

PROFESSIONAL EXPERIENCE

Pharmacy Intern

June 2025

Puskesmas Ciputat

South Tangerang

- Performed full pharmaceutical care cycle — prescription screening, dispensing, Drug Information Service (DIS), and medication handover — in accordance with pharmaceutical care standards.
- Managed inventory data for 779 drug and medical device items through daily recaps and Stock Opname (SO) to ensure accurate availability.
- Developed a Standard Operating Procedure (SOP) for prescription destruction, improving documentation compliance and operational consistency.
- Delivered community health education on safe medication disposal and cholesterol management to ~50 participants at Posbindu, Ciputat District.
- Recorded and analyzed methadone distribution data to support monitoring of the Methadone Maintenance Therapy Program (MMTP).

Pharmacy Intern

Apr 2025 – May 2025

Apotek Salva Medika

Bekasi

- Conducted responsible self-medication counseling by assessing drug suitability, dosage accuracy, contraindications, and potential drug interactions to support safe patient outcomes.
- Performed Stock Opname achieving 100% alignment between physical inventory and system records, minimizing stock discrepancies.
- Managed prescription orders via telemarketing and walk-in services with high accuracy, ensuring efficient and patient-friendly pharmacy operations.

Clinical Pharmacy Intern

Feb 2025 – Mar 2025

RSUP Fatmawati Hospital

South Jakarta

- Delivered comprehensive pharmaceutical care including Drug Information Services (DIS), Drug Therapy Monitoring, ward round participation, prescription screening, patient counseling, and medication dispensing for safe and effective therapy.

- Analyzed BPJS drug formulary changes (KMK 503 & KMK 1665) — covering 310 reductions, 13 additions, 323 removals, and 11 price adjustments — to support accurate claim management and formulary compliance.
- Managed HIV, TB, and Leprosy drug program data for 2024 to support accurate evaluation and targeted drug distribution.
- Assisted in aseptic dispensing at the Emergency Unit and contributed to TPN calculations for High Care Unit (HCU) patients, ensuring precise nutritional therapy.
- Worked in a high-volume tertiary care setting (252,071 patient visits in Feb 2025), developing strong efficiency and clinical judgment under pressure.

Analytical Development Intern

Dec 2024 – Jan 2025

PT. Yarindo Farmatama (Fahrenheit Group)

Cikande

- Prepared validation protocols and reviewed analytical method validation data to ensure full compliance with testing standards and regulatory requirements.
- Managed and verified HPLC routine check data for PDA-based specificity testing, ensuring accuracy and analytical consistency.
- Coordinated with QA on document control procedures to maintain audit-ready controlled documents.

Distribution Pharmacy Intern

November 2024

PT. Penta Valent

East Jakarta

- Applied GDP (CDOB) and GDPMD (CDAKB) standards in daily distribution operations to ensure regulatory compliance and supply chain integrity.
- Maintained systematic PO document archiving for full traceability, compliance, and audit readiness.
