

Savira Salsabila Edison

Bekasi, West Java | 0812-7041-7849 | savirasalsabila87@gmail.com

SUMMARY

Pharmacist with a strong academic background and hands-on experience in pharmaceutical formulation, analytical testing, analytical method development, and laboratory research. Experienced in method validation, scientific documentation, and laboratory data interpretation through academic research and pharmaceutical training. Familiar with dosage form development, excipient functionality, pre-formulation studies, and quality evaluation of pharmaceutical preparations. Eager to contribute to analytical development, product development, and pharmaceutical innovation within the industry.

EDUCATION

Andalas University Pharmacist Professional Program (Apothecary Program) GPA: 3.99	Padang, West Sumatra 2025 – 2026
Andalas University Department of Pharmacy GPA: 3.80/4.00	Padang, West Sumatra 2020 – 2024

ACADEMIC PROJECT & RESEARCH EXPERIENCE

Undergraduate Thesis – Analytical Method Development of Plant Extract

- Developed and optimized an analytical method for plant extract using UV-Vis spectrophotometry and TLC-densitometry.
- Performed parameter optimization to obtain accurate, precise, and reproducible analytical results.
- Analyzed analytical data and evaluated method performance through validation parameters, including accuracy, precision, linearity, LOD, and LOQ, to ensure reliability and reproducibility of results.
- Prepared scientific reports and documentation in accordance with research standards.

Pharmaceutical Compounding & Formulation Practice

- Prepared solid, semi-solid, and liquid pharmaceutical dosage forms.
- Applied knowledge of excipient functions and basic pre-formulation studies.
- Evaluated physical characteristics, stability, and homogeneity of pharmaceutical preparations.
- Applied pharmaceutical references, including the Handbook of Pharmaceutical Excipients, to understand excipient functions, compatibility considerations, and formulation requirements.

WORK EXPERIENCE

Hospital – RS Otak DR. Drs. M. Hatta Bukittinggi Internship Team Leader	Bukittinggi, West Sumatra August 2025 – September 2025
- Led team coordination and ensured accurate clinical documentation. - Conducted medication reconciliation to identify discrepancies. - Gained exposure to sterile preparation and CSSD processes	
Pharmaceutical Manufacturing Internship – Caprifarmindo Laboratories Production Department	Cimahi, West Java July – August 2025
- Gained understanding of pharmaceutical dosage form manufacturing processes and formulation-related considerations. - Observed critical process parameters affecting product quality and stability. - Supported documentation review (batch records, SOP) under supervision. - Gained exposure to deviation handling, CAPA, and change control systems. - Developed understanding of cross-functional coordination in pharmaceutical production.	

Pharmaceutical Distributor (PBF) – Tri Sapta Jaya

Muara Bungo, Jambi

Internship

May 2025

- Implemented Good Distribution Practice (GDP/CDOB) in warehouse operations.
- Performed incoming goods verification (batch number, expiry date, item code) against purchase orders.
- Monitored and documented temperature & humidity conditions to ensure product stability.
- Maintained accurate documentation and traceability for compliance and audit purposes.
- Processed and verified 40+ orders with high accuracy, minimizing discrepancies.
- Supported inventory control system and proper documentation archiving.

Faculty of Pharmacy – Andalas University

Padang, West Sumatra

Laboratory Teaching Assistant

2022 – 2024

- Delivered laboratory training and practical demonstrations for undergraduate pharmacy students in organic chemistry, physicochemical analysis, and pharmaceutical compounding, in accordance with established laboratory procedures.
- Assisted students in analytical testing, result evaluation, and interpretation of laboratory data generated from UV-Vis spectrophotometry and TLC-densitometry.
- Supervised the use of analytical instruments including UV-Vis spectrophotometry, TLC-densitometry, refractometer, and polarimeter, ensuring proper handling and safety compliance.
- Supported laboratory documentation and academic records, strengthening traceability and standardization across laboratory activities.

ORGANIZATIONAL EXPERIENCE

Pharmacy English Club – Faculty of Pharmacy, Andalas University

Padang, West Sumatra

Program Coordinator

March – December 2023

- Coordinated educational programs and training sessions with external speakers and partners.
- Managed event planning, scheduling, and stakeholder communication.
- Collaborated with internal and external parties to ensure successful program execution.
- Strengthened project coordination, negotiation, and organizational skills.

Student Executive Board – Faculty of Pharmacy, Andalas University

Padang, West Sumatra

Department Secretary

January – December 2022

- Managed documentation, correspondence, and archiving for departmental activities
- Supported operational continuity by acting as deputy coordinator when needed
- Coordinated community outreach programs including health education and drug counseling
- Facilitated structured communication between students and faculty

SKILLS & INTERESTS

Analytical & Laboratory: Analytical Method Development & Validation (Linearity, Accuracy, Precision, LOD, LOQ), UV-Vis Spectrophotometry, TLC & TLC-Densitometry, Sample Preparation, Data Analysis & Interpretation Formulation & Pharmaceutical Science: Pharmaceutical Compounding, Dosage Form Knowledge (Solid, Liquid, Semi-solid), Basic Pre-formulation Study, Stability & Homogeneity Evaluation

Quality & Documentation: GMP/CPOB, GDP/CDOB, Documentation Control, Scientific Documentation, Change Control, CAPA, Deviation Handling

Computer Skills: Microsoft Excel, Microsoft Word, Microsoft PowerPoint

Language: Bahasa Indonesia (Native), English: Professional Working Proficiency (limited verbal, strong reading comprehension), TOEFL Prediction Score: 510

Interest: Analytical Development | Pharmaceutical Research & Development | Product Development | Method Validation | Pharmaceutical Innovation
