Perumahan Telaga Mas Blok G5 No 51, Kota Bekasi

I am a highly motivated and dedicated professional with approximately 10 years of experience in the pharmaceutical industry and product distribution. I have a strong interest in the manufacturing and Distribution processes of a product, starting from raw materials, through the production process, inspection, and final release in accordance with established standards. I have extensive experience in Quality Control, Production, Warehouse operations, and Quality Assurance. My professional background in the pharmaceutical industry includes medical device manufacturing, pharmaceutical manufacturing, cosmetic manufacturing and household health product manufacturing.
