WORK EXPERIENCES

PT Kalbio Global Medika – Central Cikarang, Bekasi Regency January 2026 – February 2026

Professional Pharmacist Internship (Division: Quality System and Compliance – GMP Compliance)

- Successfully conducted gap assessments between company practices and 1,200+ GMP requirements across PIC/S, EU GMP, and CPOB, resulting in external-auditor approval.
- Managed up to 10 CAPA records/day, supporting evidence completeness, corrective-action tracking, and timely closure.
- Maintained up to 15 Change Control items/day, improving visibility of overdue actions and approval-document status.
- Supported 2 QMS activities: audit readiness and CAPA/Change Control migration to e-QM, strengthening document traceability.

PT Millenium Pharmacon International – Medan

November 2025

Professional Pharmacist Internship

- Actively contributed in 4 pharmaceutical-distribution stages: order processing, receiving, storage, and delivery, supporting alignment with CDOB requirements.
- Verified product-order documentation, ensuring complete and traceable distribution records.
- Evaluated 3 quality-control areas: temperature control, storage conditions, and deviation handling, supporting product quality throughout distribution.
- Submitted data through 2 regulatory platforms: e-Report PBF and BPOM e-Was, supporting complete and timely regulatory reporting.

Physical Pharmacy Laboratory Universitas Sumatera Utara – Medan

August 2023 – August 2025

Laboratory Teaching Assistant

- Managed 3 laboratory-resource categories: equipment, chemicals, and supporting materials, maintaining readiness for practical sessions and research activities.
- Assisted students with experimental-data analysis and report verification, supporting accurate and consistent laboratory results.
- Improved laboratory-preparation efficiency by 10% through structured scheduling and systematic material management.

EDUCATION

Universitas Sumatera Utara

June 2025 – August 2026

Professional Pharmacist Program, GPA: 4.00/4.00

- Relevant Coursework: Industrial Pharmacy, Pharmaceutical Manufacturing, Manufacturing and Evaluation of Dosage Forms, GMP/CPOB, Pharmaceutical Quality Systems, Process Validation, Pharmaceutical Regulations and Ethics, and Pharmaceutical Technology.

Universitas Sumatera Utara

August 2021 – August 2025

Bachelor of Pharmacy, GPA: 3.79/4.00

- Relevant Coursework: Pharmaceutical Technology and Formulation, Physical Pharmacy, Pharmaceutical Quality by Design, Pharmaceutical Analysis, Pharmaceutical Microbiology, Pharmaceutical Chemistry, Biopharmaceutics, and Pharmaceutical Manufacturing Processes.

SKILLS, CERTIFICATIONS & ACHIEVEMENTS

- Skills: Pharmaceutical formulation and dosage-form evaluation; pharmaceutical manufacturing processes; solid, liquid, and sterile dosage-form principles; GMP/CPOB and SOP compliance; process validation; production-process monitoring; trial and quality-documentation support; Microsoft Excel, Word, and PowerPoint; data analysis and technical reporting; analytical thinking, attention to detail, systematic work approach, problem solving, cross-functional coordination, process improvement, and target orientation; Indonesian (Native) and English (Advanced).
- Certifications: Good Manufacturing Practices (GMP); Healthcare Regulatory (Drugs and Cosmetics) in Accordance with BPOM Regulations; Advanced English as a Second Language; Microsoft Excel; Microsoft Word; World of Compliance Overview (Abridged); Manufacturing and Product Quality (Abridged); and Digital Skills: Digital Skills for Work and Life.
