

# M. Wahyu Fikri

Tangerang, Banten | +6283187102705 | mwahyufikri31@gmail.com

## Profile

---

Fullstack Developer with experience in building web and mobile applications using Laravel, React, and Flutter. Skilled in REST API development, MVC Architecture, and Object-Oriented Programming (OOP). Focused on delivering scalable, maintainable, and user-friendly solutions with clean code and optimized performance.

## Education

---

**2022 - 2025 | Padang State Polytechnic | Department of Information Technology**

IPK : 3,65

## Work Experience

---

**Feb 2025 - Jun 2025 | Backend Developer | PT. Rapier Technology International**

- Contributed to the development of a web-based Warehouse Management System using Laravel, MySQL, and JavaScript to streamline inventory and logistics operations.
- Diagnosed and resolved bugs in inbound and outbound modules, improving data accuracy and reducing transaction errors.
- Performed debugging, query optimization, and code refactoring to enhance system performance and responsiveness.
- Analyzed logs and database queries to identify and resolve system issues.
- Collaborated with the development team using version control (Git) to ensure efficient code integration and smooth development workflow.

**Okt 2025 - Apr 2026 | Web Programmer | PT Nazea Teknologi Indonesia**

---

- Maintained and enhanced an organizational website using Laravel and React JS, implementing new features and ensuring system stability.
- Developed a Point of Sale (POS) system using Laravel, MySQL, and JavaScript, focusing on sales, purchase, and inventory modules.
- Optimized database operations to ensure data consistency and efficient transaction processing.
- Performed debugging and testing to resolve issues and improve overall system reliability.
- Collaborated with team members using GitHub for efficient development and version control.
- Served as an instructor in a 1-month web development training program using Native PHP under the Ministry of Manpower program at CV Mediatama Web Indonesia.
- Delivered private training in advanced Microsoft Excel, including VLOOKUP, HLOOKUP, PivotTables, data analysis, and spreadsheet optimization in a week.

## Project/Portofolio

---

### **Point of Sale (POS) System – Diata Store**

Developed a cashier web application to handle sales transactions, product management, and automatic receipt generation, improving efficiency in daily store operations. (Laravel, MySQL, Tailwind CSS)

### **UMKM Shoe Store E-Commerce**

Built an e-commerce platform with product catalog, shopping cart, and checkout features to support local shoe sales. (Laravel, MySQL, Tailwind CSS)

### **Travel Ticket Booking System – AWR Travel**

Designed a web-based ticket booking system with scheduling, seat selection, payment features, and real-time notifications via WhatsApp. (Laravel, MySQL, Tailwind CSS, WhatsApp API, Midtrans Payment Gateway)

### **Activity Documentation Management System - Golkar**

Developed a web-based system for recording, managing, and documenting organizational activities, including activity details and documentation records. (React.js, Laravel, MySQL)

## Skills

---

**Languages :** Indonesia, English (Intermediate Level, TOEIC Score: 534)

### **HardSkills**

**Backend :** PHP, Laravel, Python, Node JS

**Frontend :** JavaScript, Tailwind CSS, React.js

**Database :** MySQL, PostgreSQL

**Tools :** Git, Figma

**Others:** Flutter, Java, Canva, Microsoft Office

**SoftSkills :** Teamwork, Critical Thinking, Problem Solving, Communication, Time Management, Perseverance
