📍 Depok, West Java

SUMMARY

A licensed pharmacist from Pancasila University with a highly interested in the pharmaceutical manufacturing. Possessing understanding of Good Manufacturing Practice (GMP) standards and their application in pharmaceutical production environments. My experience as a Laboratory Assistant Coordinator has equipped me with strong technical skill, while also honing my communication, leadership, and teamwork skills optimally. Known as a disciplined and responsible individual, able to work systematically both independently and in teams, with a strong commitment to integrity and quality compliance.

PROFESSIONAL EXPERIENCE

PT Abbott Indonesia ~ Production Compliance Department

06/2025 – 07/2025

Apothecary Student Internship

Depok

- Participated in gemba activities by reviewing the completeness and condition of equipment usage and cleaning logbooks, as well as verifying calibration status of production equipment.
- Assisted in investigation on method-related deviations through batch record review.
- Inputted operator interview results into Exception Reports as part of human factor deviation investigations.
- Prepared Exception Report (ER) attachments for Out Of Trend (OOT) findings, compiling IPC data tables of post compression and post coating weights.
- Assisted in creating product lists during the CAPA effectiveness check period.
- Assisted in updating Basic Operating Procedures (BOPs) by inputting the latest procedural revisions in accordance with current production standards.

Pancasila University

Pharmaceutical Analysis Laboratory Assistant for The Advanced Pharmacy Industry Course

02/2026 –

03/2026

South Jakarta

- Mentored students in conducting performance tests (weight variability, dissolution, and assay) on paracetamol-caffeine tablets.
- Provided guidance on the use of analytical balance, dissolution tester, and HPLC.

Coordinator of Pharmaceutical Analytical Chemistry Laboratory Assistant

09/2024 –

12/2024

South Jakarta

- Coordinated and led a team of assistants in conducting pharmaceutical analytical chemistry lab.
- Mentored students in the analysis of pharmaceutical compounds using laboratory techniques such as titration (acid-base, complexometry, redox, and argentometry) and spectroscopy (UV-Vis spectrophotometry, FTIR, and AAS).

Coordinator of Organic Chemistry Laboratory Assistant

03/2024 –

06/2024

South Jakarta

- Coordinated and led a team of assistants in conducting organic chemistry lab.
- Mentored students in organic chemistry lab by guiding them in experiments on the synthesis, isolation, and identification of organic compounds using techniques such as recrystallization, reflux, and qualitative analysis.

Separation Technology Laboratory Assistant

09/2023 –

12/2023

South Jakarta

- Mentored students in the use of laboratory equipment and separation techniques such as extraction (maceration, reflux, and liquid-liquid extraction), chromatography (thin layer chromatography, column chromatography), distillation, and solvent evaporation.
- Evaluated, provided feedback, and assessed students' reports.

PT Harsen Laboratories ~ Quality Assurance Department

05/2019 – 08/2019

Vocational Student Internship

East Jakarta

- Participated in In Process Control (IPC) activities for hormone tablets, non-hormone tablets, and syrup production which at that time were under the Quality Assurance department
- Performed quality control testing including tablet weight uniformity, friability, disintegration time, hardness, and strip and blister leak testing.
- Conducted syrup testing including density, bottle cap tightness, and deliverable volume testing.
- Conducted microbial contamination testing using the air sampling method in the microbiology laboratory.

EDUCATION

Apothecary

02/2025 – 02/2026

Pancasila University

South Jakarta

GPA: 3.91/4.00

UKOMNAS-PDPA score: 86.00% (Top 4 out of 117 graduates)

Bachelor of Pharmacy

09/2020 – 08/2024

Pancasila University

South Jakarta

GPA: 3.39/4.00

CERTIFICATES

Surat Tanda Registrasi Apoteker

05/2026 – Present

Konsil Kesehatan Indonesia

Introduction Validation In Industrial Pharmacy

06/2026

PT Jadi Praktisi Indonesia

How to Sterile Production in Pharmaceutical Industry?

06/2026

PT Jadi Praktisi Indonesia

Cara Pembuatan Obat yang Baik

04/2026

PT Makin Ahli Indonesia

CAPA and Root Cause Analysis in Pharmaceutical Industry

04/2026

PT Makin Ahli Indonesia
