ABOUT ME

I am a licensed Pharmacist graduated from the Faculty of Pharmacy at Pancasila University with academic and professional experience in pharmaceutical research, Quality Assurance, Quality Control, and laboratory operations within GMP/CPOB-regulated environments. As a Research Assistant at PT Natura Nuswantara Nirmala, I conducted literature reviews, analyzed research data, prepared technical documentation, and supported research projects. This experience strengthened my ability to organize scientific information, prepare accurate documentation, and contribute to product development activities. During my internship in Quality Assurance at PT Harsen Laboratories, I supported batch record verification, APQR preparation, documentation review, quality data analysis, and compliance monitoring, providing practical exposure to pharmaceutical manufacturing processes and quality systems. Previously, as a QC Analyst at PT Guardian Pharmatama, I performed analytical testing using HPLC, UV-Visible Spectrophotometry, Karl Fischer Titration, and dissolution testing while maintaining laboratory documentation in accordance with GMP/CPOB requirements. These experiences have provided me with a solid understanding of pharmaceutical products, quality documentation, analytical evaluation, and cross-functional collaboration. I am detail-oriented, analytical, eager to learn, and motivated to support packaging development activities that contribute to product quality, functionality, regulatory compliance, and continuous improvement.

WORKING EXPERIENCES

PT. Natura Nuswantara Nirmala, Research Assistant (November 2024 – November 2025)

- Conduct literature reviews and analyze data to support research outcomes.
- Develop concise and accurate research reports and documentation.
- Support project execution, including administration and special initiatives.

Apotek Askia, Pharmacist Intern (October 2025)

- Delivered patient counseling and dispensed medications in compliance with Good Pharmacy Practice.
- Managed inventory, documentation, and supported pharmacy operations and public health initiatives.

PT. United Dico Citas Jakarta 2, Pharmacist Intern (September 2025)

- Executed drug distribution in compliance with CDOB (Good Distribution Practice).
- Performed quality checks to ensure product integrity and safety.
- Managed documentation and supported PKPA reporting for regulatory compliance.

Hermina Kemayoran Hospital, Pharmacist Intern (August 2025)

- Provided medication management and patient counseling.
- Performed prescription review and validation.
- Collaborated with healthcare professionals in clinical settings.

Puskesmas Citeureup, Pharmacist Intern (July 2025)

- Dispensed medications and reviewed prescriptions in accordance with clinical pharmacy standards.
- Provided drug information, counseling, and community health education.
- Collaborated with healthcare teams and ensured pharmaceutical quality, safety, and compliance.

PT. Harsen Laboratories, Pharmacist Intern - Quality Assurance (May 2025 – June 2025)

- Collected and verified batch records, IPC test results, and analytical data to support APQR preparation.
- Analyzed quality data to evaluate finished product performance and compliance.
- Ensured data accuracy, completeness, and timely documentation in the product release process.
- Performed statistical analysis to support quality assessment and data-driven decision-making.

Pancasila University, Laboratory Assistant

(September 2023 – May 2024)

Semi Solid and Liquid Pharmaceutical Technology, Microbiology, and Sterile Pharmaceutical Technology

- Facilitated laboratory instruction by preparing practicum materials, guiding students and ensuring accurate execution of pharmaceutical preparations.
- Assessed student competencies through evaluation of laboratory outputs, examinations, and development of pre- and post-assessment tools.

PT. Guardian Pharmatama, QC Analyst

(July 2019 – December 2019)

- Performed dissolution testing of film-coated tablets and vitamin products using spectrophotometry and HPLC.
- Conducted analytical testing including acid-neutralizing capacity, paracetamol assay, pH measurement, and potentiometric titration.
- Executed water content analysis using Karl Fischer titration to ensure product quality.
- Prepared chemical reagents, dissolution media (intestinal fluid buffer), and standard/comparison solutions to support laboratory analysis.

EDUCATION

Pharmacist Professional Study Program, Pancasila University

(March 2025 – April 2026)

GPA: 3.89/4.00

Bachelor of Pharmacy, Pancasila University

(September 2020 – September 2024)

GPA: 3.03/4.00

Vocational High School, SMK Analis Kimia YKPI Bogor

(July 2016 – May 2020)

Chemical Analyst

ADDITIONAL INFORMATION

Quality & Regulatory Skills

- GMP, GDP, ISO 14001, ISO 17025, ISO 45001
- APQR, Document Control, Compliance

Analytical & Laboratory Skills

- HPLC, UV-Vis Spectrophotometry, FTIR, Karl Fischer Titration
- Extraction Analysis (Maceration, Reflux, Digestion, Ultrasonic Assisted Extraction)
- Titrimetry, Gravimetry, Microbiology, Proximate

Soft Skills

- Teamwork, Leadership, Collaboration, Critical thinking, Time management

Certifications

- [Sertifikat Profesi Apoteker](#)
- [E-STR \(Surat Tanda Registrasi\) Apoteker](#)
- [Sertifikat Kompetensi Apoteker](#)
- [Surat Keterangan Magang PT. NATURA NUSWANTARA NIRMALA](#)
- [ISO 14001](#)
- [ISO 17025](#)
- [ISO 45001](#)
