PERSONAL STATEMENT

A Bachelor of Pharmacy graduate from Universitas Gadjah Mada, presently undertaking the Pharmacist Professional Program at Universitas Gadjah Mada. Proven experience in quality control through a pharmaceutical industry internship, combined with a track record of **award-winning innovations in pharmaceutical and skincare competitions**. Possesses strong competencies in **analytical chemistry testing and product innovation**, supported by adaptability, problem-solving abilities, attention to detail, and effective communication and teamwork skills.

EDUCATION

Universitas Gadjah Mada - Sleman, Yogyakarta

(Aug 2025 - Present)

Apothecary Professional Program

Universitas Gadjah Mada - Sleman, Yogyakarta

(Aug 2021 - June 2025)

Bachelor of Pharmacy Program

- **GPA:** 3.83/4.00 (Cum Laude)
- **Thesis:** Optimization of Solvent Concentration and Sample-to-Solvent Ratio on Yield in Protein Extraction and Protein Analysis of Soybean (*Glycine max*). Methodology: Protein extraction using conventional extraction methods (solid-liquid) followed by analysis of total protein concentration using the Bicinchoninic Acid Assay (BCA) method and identification of protein profiles using the SDS-PAGE method.

PROJECTS AND WORK EXPERIENCES

PT Nufarindo (Exeltis Indonesia) - Semarang, Central Java

(Oct 2025 - Nov 2025)

Quality Control Intern

- Performed daily verification of laboratory equipment (pH meters, analytical and ultra-micro balances, acid cabinets) and monitored room environmental conditions.
- Assisted in finished and bulk product testing for various dosage forms (tablets, syrups, semi-solids), covering physical tests (pH, viscosity, weight uniformity, specific gravity), impurity testing, and 5 API content analyses.
- Prepared 5+ samples for HPLC and GC analysis.
- Contributed to laboratory documentation by developing SOPs for particle counter operations and maintaining strict compliance with GLP and GDP.
- Identified and reported OOS/OOT results in syrup dosage forms, assisting QC analysts in further evaluation and investigation.
- Participated in discussions with R&D, SCM, and Production managers regarding product innovation research workflows, raw material procurement and finished product distribution processes, and manufacturing workflows within the pharmaceutical industry.

Aneka Syifa Pharmacy - Sleman, Yogyakarta

(June 2025 - Present)

Parttime Pharmacist Assistant

- Provided self-medication and patient counseling, assisted in prescription dispensing and educated patients on non-communicable diseases based on health screening results.
- Supported pharmaceutical inventory management, including procurement of pharmaceutical products through distributors, product receiving, pricing, and monitoring out-of-stock medicines.

Puskesmas Kalasan - Sleman, Yogyakarta

(April 2026)

Pharmacist Intern

- Assisted in prescription screening, medication dispensing and preparation, drug information services, patient counseling, drug therapy monitoring for inpatients, and inpatient ward visits. Supported drug inventory management and administrative services for BPJS program patients.

Asy-Syifa' Pharmacy - Sleman, Yogyakarta

(Feb 2026 - Mar 2026)

Pharmacist Intern

- Assisted in self-medication services, prescription screening, medication dispensing and preparation, drug information services, and patient counseling. Supported drug inventory management activities including drug storage, procurement, and disposal of expired medicines.

Rumah Sakit Akademik UGM - Sleman, Yogyakarta

(Dec 2025 - Jan 2026)

Pharmacist Intern

- Assisted in pharmaceutical care services, including prescription screening, drug information services, and patient counseling. Conducted drug therapy monitoring and collaborated with pharmacists and other healthcare professionals in discussing patient therapy plans to support appropriate medication use and patient care outcomes. Supported drug inventory control activities.

Universitas Gadjah Mada - Sleman, Yogyakarta

(Feb 2023 - Dec 2024)

Laboratory Assistant in Molecular Biology, Analytical Chemistry, Quality Assurance, and Medical Devices

- Supported laboratory practicum activities in molecular biology, analytical chemistry, quality assurance, and medical devices through material and instrument preparation, procedural briefings, laboratory guidance, and student assessment. Assisted molecular biology and bioinformatics procedures, volumetric analysis methods, and the operation of pH meters, UV-Vis spectrophotometers, and TLC for analytical and quality testing while ensuring compliance with laboratory protocols and procedures.

ORGANIZATIONAL EXPERIENCES**LPM Farsigama Farmasi UGM - Sleman, Yogyakarta**

(Aug 2023 - Dec 2023)

Editorial Staff

- Organized magazine topics and developed engaging and easy-to-understand magazine sections while collaborating with fellow editorial staff to ensure well-structured and cohesive magazine content.

KMMF UGM - Sleman, Yogyakarta

(Aug 2023 - Dec 2023)

Staff of Islamic Fund Business Entity

- Assisted in fundraising business initiatives, coordinated with suppliers, and supported product distribution activities.

Pharmacious Farmasi UGM - Sleman, Yogyakarta

(Mar 2023 - Oct 2023)
