A dedicated and adaptable Environmental Engineering graduate from Institut Teknologi Sepuluh Nopember (ITS) with a strong passion for sustainability management, environmental compliance, and continuous improvement. Throughout my academic journey, I have gained hands-on experience in environmental impact assessment, waste management (including B3 waste), and the implementation of Environmental Management Systems based on ISO 14001:2015. I am highly motivated, detail-oriented, and eager to contribute to sustainability by supporting effective environmental monitoring, resource efficiency initiatives, and regulatory compliance. I am ready to learn, adapt quickly, and bring a proactive mindset to the team.
