PERSONAL PROFILE

Licensed Pharmacist and Quality Control Supervisor with experience in the pharmaceutical industry, specializing in finished product and stability testing within GMP-compliant environments. Skilled in Quality Control operations, OOS/OOT investigations, CAPA implementation, SOP development, and laboratory compliance management. Proven ability to lead teams, coordinate cross-functional activities, and ensure product quality, regulatory compliance, and timely batch release. Possesses strong analytical, problem-solving, and leadership skills with a commitment to continuous improvement and operational excellence.

EDUCATION

Pancasila University, Jakarta 2019 – 2023
Bachelor of Pharmacy, GPA: 3.41/4.00

Pancasila University, Jakarta 2024 – 2025
Apotachary, GPA: 3.96/4.00

WORK EXPERIENCES

PT. Pharma Laboratories

Quality Control Supervisor Juni 2025 - Present

- Developed, reviewed, and ensured effective implementation of Quality Control Standard Operating Procedures (SOPs) including sampling, sample handling and analytical methods
- Managed and led the QC team in performing routine analytical testing of raw materials, packaging materials, finished products, stability samples, and microbiological samples in accordance with approved methods and specifications.
- Managed and investigated Out of Specification (OOS) and Out of Trend (OOT)
- Prepared and executed Corrective and Preventive Action (CAPA) plans to address discrepancies, deviations, and non-conformities within the Quality Control department.
- Managed QC laboratory needs, including reagents, consumables, and equipment, ensuring availability and optimal stock levels to support testing activities
- Coordinated and actively participated in cross-functional meetings with Production, QA, Engineering, and other departments to support product quality and operational efficiency.
- Create protocols and reports for the qualification (DQ,IQ,OQ) or re-qualification of new instruments and the transfer of instruments
- Participated in internal audits to assess compliance with GMP requirements and internal quality procedures

PT. Pharma Laboratories

Quality Control Internship (PKPA) Juni – Juli 2024

- Performed routine testing of Purified Water including conductivity, pH, chloride, and sulfate parameters to ensure compliance with established specifications and GMP/CPOB requirements for pharmaceutical manufacturing support systems.
- Conducted finished product analysis including moisture content, dissolution, disintegration time, and assay using validated analytical methods to ensure product quality, safety, and consistency prior to product release.
- Carried out inspection and testing of packaging materials, including dimensional measurements (length, width, thickness), packaging weight, and verification of labeling composition and color standards, to ensure compliance with approved specifications and prevent packaging errors.

ORGANIZATIONAL EXPERIENCES

Pengenalan Kehidupan Kampus bagi Mahasiswa Baru (PKKMB) Fakultas Farmasi by Senat FFKMUP

Documentation and Design Division

September-January 2022

- Applied copywriting techniques for writing captions in exciting and informative feeds on the Instagram account @pkkmbffup2022.
- Designed event logos, backdrops, and name tags for the committee and speakers.
- Responsible for documenting the entire event through photos and videos

Pharmacy Fair by Senat FFKMUP

Health Poster Competition Division

March-November 2021

- Determined the theme and sub-theme of the competition.
- Conducted selection and recorded administrative completeness and works of contest participants sent via email to the committee.
- Coordinated with the jury regarding the assessment of works.
- Coordinated with contest participants related to the work submission.

GEPAMAS COVID-19 by ISMAFARSI 2020-2022

volunteer

September-December 2021

- Provide supply of vitamins and boosters for the surrounding community
- Pharmacists to provide information to the surrounding community regarding prevention and immune defense during the COVID-19 pandemic
