SUMMARY

Pharmacy graduate with hands-on experience in formulation research, product packaging, and pharmacy work. Skilled in developing and testing pharmaceutical products, including particle size analysis (PSA) and stability testing. Experienced in preparing and giving medicines to patients, managing medicine stock, and keeping accurate records. A good communicator and team player who is eager to grow a career in the pharmaceutical industry.

EXPERIENCE

Packaging and Labeling Intern

MIROCELL - PT. Sukma Skin Treatment

February 2025 - March 2025, Tangerang, Banten, Indonesia

- Labeled and packed around 100 skincare products per day, following Standard Operating Procedures (SOPs) to keep quality consistent.
- Checked products and packaging for damage or defects before they were sent out, so only good-quality products reached customers.
- Helped with the product filling process and prepared products for packaging.
- Counted, organized, and packed finished products into 20+ cartons per day so they were ready for delivery on time.

Pharmacy staff · Full-time

Apotek willy

March 2022 - July 2022, Tangerang, Banten, Indonesia

- Checked prescriptions and prepared, mixed, labeled, and gave medicines to ±50 patients per day under the supervision of a pharmacist.
- Explained to patients how to use their medicines safely, including dosage and possible side effects.
- Managed stock of more than 300 medicine items, including receiving deliveries, storing items properly, placing orders, and checking expiry dates to reduce waste.
- Helped customers choose over-the-counter medicines and answered their questions in a friendly and clear way.

PROJECT

Patchouli Oil Microemulsion Gel Research Project

Department of Pharmacy, Universitas Esa Unggul · January 2026 - May 2026

- Developed and improved a microemulsion gel formula using patchouli oil, with a pseudo-ternary phase diagram to find the best mix of ingredients.
- Measured particle size using a Particle Size Analyzer (PSA) and tested the gel's physical and chemical properties, such as pH, viscosity, and appearance.
- Ran stability tests to make sure the gel stayed safe and effective over time.

Formulation Projects

Department of Pharmacy, Universitas Esa Unggul · August 2024 - January 2025

- Worked in a team to create cream, suspension, and balm products from start to finish.
- Designed formulas and prepared products in the lab following proper pharmaceutical methods.
- Tested the quality of each product and wrote clear reports on the process and results.

EDUCATION

Bachelor of Pharmacy

Universitas Esa Unggul · Tangerang · 2026 · 3.71

- Completed undergraduate thesis on improving a patchouli oil microemulsion gel formula using a pseudo-ternary phase diagram.
- Gained hands-on skills in pharmaceutical formulation, particle size analysis (PSA), and stability testing.

SKILLS

Skills: Research & Development (Formulation Development, Experimental Design, Data Analysis)
Pharmaceutical Analysis (Particle Size Analysis, Physical Stability Testing, pH Measurement, Viscosity Testing)
Pharmaceutical Formulation (Microemulsion, Gel Formulation, Compounding)
Professional Skills (Communication, Critical Thinking, Teamwork)
