Informatics graduate with experience in web application development, system validation, data management, software testing, and technical documentation. Skilled in Laravel, MySQL, troubleshooting, and creating user documentation to support system implementation and maintenance. Experienced in developing and validating web-based systems while ensuring functionality and data accuracy. Strong analytical, problem-solving, and teamwork skills, with a willingness to learn and adapt to new technologies. Seeking opportunities in IT Support, Application Support, Quality Assurance, Technical Writing, and other related IT roles.

EDUCATION

Sep 2021 - Jun 2025

Universitas PGRI Semarang

Informatics (3.83/4.00)

Built a strong foundation in software development, database management, system analysis, and IT operations through academic projects and practical experience. Developed analytical, technical, and problem-solving skills applicable to software development, application support, and IT support roles.

EXPERIENCE

Nov 2025 - May 2026

PT Bonecom Tricom

IT Staff

- Performed system and operational data validation to ensure data accuracy and consistency across production activities
- Monitored production workflows and identified discrepancies between production schedules, line activities, and scan-label/kanban data
- Prepared production reports and recaps by comparing planned and actual activities to support operational monitoring
- Conducted IT monitoring and basic software audits, including software installation checks and routine system checks
- Investigated and followed up on system-related issues involving PI, E-Label, kanban scanning, and other operational processes
- Created and maintained system documentation, manual books, and supporting documents for system usage and operational processes
- Prepared and analyzed data using Google Sheets and Google Colab to compare system and field data and identify discrepancies
- Coordinated with relevant departments including PCD, Logistics, and Delivery to support issue identification and resolution

Campus Digital

Jan 2024 - Apr 2024

Web Developer

- Migrated legacy web applications from CodeIgniter to Laravel to improve system maintainability
- Developed CRUD features, authentication, form validation, database migration, and data management using Laravel and MySQL
- Improved frontend interfaces and responsiveness using HTML, CSS, Bootstrap, and DataTables
- Performed manual testing, bug fixing, and troubleshooting to identify and resolve application issues
- Supported system improvements based on functional requirements and user needs
- Prepared technical documentation and project reports to support system development and maintenance

Independent Study - Dicoding Indonesia

Jul 2023 - Dec 2023

Full Stack

- Built web-based applications and projects using Laravel, MySQL, JavaScript, HTML, and CSS
- Applied software engineering best practices, including version control, responsive design, and backend development
- Collaborated with mentors and peers to complete projects and assignments on schedule
- Developed a capstone/final project as part of the Full Stack Web Development program
- Learned cloud computing, DevOps, CI/CD, microservices architecture, and backend development fundamentals

PROJECTS & ACTIVITIES

International Service Learning (ISL) - Malaysia

Dec 2024

Participant

- Engaged in educational and social activities for community development
- Strengthened cross-cultural communication and teamwork
- Contributed to social projects through technology and educational programs

PKM PM - Best Team Award

Jan 2023 - Apr 2023

Team Leader

- Led the project "Youth Cadre Against Sexual Violence: IT-Based Approach and Inclusion to Create Quality Human Resources"
- Designed strategies, developed content, and implemented IT solutions
- Collaborated with team members to achieve project goals effectively

ORGANIZATIONAL EXPERIENCE

Robotika UPGRIS

Oct 2022 - Jul 2023

Secretary II

- Assisted in preparing official letters, meeting minutes, and administrative documents
- Managed the filing and recaps of incoming and outgoing correspondence
- Assisted the Treasurer in preparing activity budgets (RAB) and proposals, as well as supporting event preparation

SKILLS

- **Technical Skills** : PHP (Laravel), MySQL, JavaScript, HTML, CSS, System & Validation, Software Testing, Manual Testing, Technical Documentation, SDLC
- **Software Tools** : Visual Studio Code, Git, GitHub, XAMPP, Microsoft Office, Figma, Draw.io
- **Soft Skills** : Problem Solving, Analytical Thinking, Communication, Teamwork, Adaptability, Leadership
- **Languages** : Indonesian (Native), English (Intermediate)

CERTIFICATIONS

- EnglishScore - British Council (2025)
- Junior Web Programmer - BNSP (2025)
- Full Stack Developer - Dicoding (2023)
