Bekasi

High-Achieving Pharmacist (Cum Laude) from Universitas Islam Bandung with a strong focus on Pharmaceutical Manufacturing, Quality Assurance, and Quality Control. Demonstrates a well-rounded healthcare and supply chain perspective built through rigorous internship (PKPA) rotations across Hospitals, Community Health Centers (Puskesmas), Pharmacies, Wholesalers (PBF), and Industrial Manufacturing. Highly proficient in analytical laboratory instrumentation (HPLC, UV-Vis Spectrophotometry, Dissolution Tester, Disintegration Tester) and well-versed in GMP (CPOB) and GDP (CDOB) compliance. Combines an analytical mindset, strict data integrity, and cross-functional leadership to drive operational efficiency and uncompromising product quality in industrial operations.

PROFESSIONAL EXPERIENCE

UPTD Puskesmas Gumuruh - Bandung, West Java, Indonesia

May 2026

Internship

- Clinical Screening & Counseling: Evaluated 100+ daily prescriptions for Rational Drug Use (POR) and delivered structured counseling including hands-on device demos.
- Inventory & LPLPO Management: Executed end-to-end supply chain workflows (forecasting, FEFO/FIFO, stock audits) and compiled monthly LPLPO reports.
- Cold-Chain & Quality Control: Maintained vaccine cold-chain stability (2–8°C), managed emergency buffer stocks, and ensured 100% compliance with GPP and Permenkes No. 74/2016.
- Pharmacovigilance & Health Education: Tracked Adverse Drug Reactions (MESO/ADR), provided Drug Information Services (PIO), and led DAGUSIBU community programs.

Lembaga Farmasi Angkatan Darat - Bandung, West Java, Indonesia

Mar 2026 - Apr 2026

Internship

- Special Project – Comparative Dissolution (UDT): Executed UDT for Amoxicillin using multi-pH media and UV-Vis Spectrophotometry to evaluate drug release profiles and bioequivalence compliance.
- QC Analysis & IPC Execution: Performed IPC and finished product testing (dissolution, assay, disintegration, friability) for solid and liquid dosage forms following Farmakope Indonesia guidelines.
- QMS, Validation & Utility Mapping: Participated in equipment qualification (IQ/OQ/PQ), Analytical Method Validation (AMV), and critical utility monitoring (HVAC, Purified Water/WFI, Compressed Air).
- Manufacturing & Cleanroom Controls: Observed multi-dosage production across Grade C, D, E cleanrooms, including dedicated Beta-Lactam facilities with strict differential pressure control.
- Data Integrity & Material Management: Reviewed Batch Records (BPR/BKR) and CoAs under ALCOA++ principles, and overseen raw material sampling/dispensing workflows using FEFO/FIFO controls.

PT. Marga Nusantara Jaya - Bandung, West Java, Indonesia

Feb 2026

Internship

- Special Project – Qualification & Calibration: Executed qualification, calibration, and validation protocols for warehouse cold chain facilities, chillers, and temperature monitoring systems per CDOB standards.
- CDOB Compliance & Cold Chain Management: Maintained GDP/CDOB standards through QMS audits, CAPA workflows, and continuous Cold Chain Product (CCP) monitoring with temperature logger verification.
- Controlled Substances & Regulatory Archiving: Validated legal Purchase Orders (SP) for Narcotics, Psychotropics, Precursors, and OOT, ensuring ALCOA++ data integrity across delivery records and archives.
- Warehouse & Supply Chain Operations: Supervised inbound receiving, quarantine, FEFO/FIFO dispatching, stock reconciliation, as well as mock recalls and product return evaluations.

Edelweiss Hospital - Bandung, West Java, Indonesia

Dec 2025 - Jan 2026

Internship

- Clinical Screening & Patient Safety: Evaluated 100+ daily inpatient and outpatient prescriptions (administrative, pharmaceutical, clinical) to prevent medication errors and ensure Rational Drug Use (POR).
- Special Project – Antibiotic Stewardship (PPRA): Conducted inpatient antibiotic consumption audits using DDD (Defined Daily Dose) and Gyssen Flowchart analysis to support rational antimicrobial guidelines.
- Clinical Rounds & Pharmacovigilance: Participated in multidisciplinary ward rounds (visite), delivered evidence-based Drug Information Services (PIO), and monitored Adverse Drug Reactions (MESO/ADR).
- High-Alert & Cold-Chain Governance: Managed High-Alert/LASA medication protocols, Narcotic/Psychotropic reconciliation, and cold-chain integrity in full compliance with Permenkes No. 72/2016.

- Retail Business & Market Analysis: Conducted feasibility evaluations, analyzed consumer demand and sales trends to support product range optimization and retail revenue growth.
- Inventory & Cold-Chain Management: Executed retail inventory workflows—including procurement, receiving, FEFO/FIFO storage, stock audits, defecta handling, and cold-chain integrity to prevent stockouts.
- Clinical Counseling & Self-Medication: Delivered structured counseling for polypharmacy cases and recommended evidence-based OTC regimens during self-medication services to optimize patient adherence.

- Prescription Screening & Precision Dispensing: Evaluated 100+ daily inpatient/outpatient prescriptions across administrative, pharmaceutical, and clinical aspects to guarantee accurate dosage calculations and safe dispensing.
- Aseptic Compounding & Bio-Safety: Executed sterile preparation workflows (IV admixtures, TPN, cytotoxic reconstitution) adhering to strict biosafety standards and cleanroom sterility protocols.
- Interprofessional Rounds & Pharmacovigilance: Supported multidisciplinary ward rounds (visite) to review patient charts, provided evidence-based Drug Information Services (PIO), and documented MESO/ADR reports.
- Inventory Control & Cold-Chain Governance: Managed hospital stock workflows—including receiving, FEFO/FIFO storage compliance, defecta recording, and cold-chain integrity under Permenkes No. 72/2016 standards.

EDUCATION

- Cum Laude graduate with focus Industrial Quality Assurance & Quality Control, Clinical Pharmacy Practice, Hospital Operations, and Regulatory Affairs.

- Thesis Title: Comparison of Total Flavonoid Content in Acetone and Methanol Extracts of Iler Leaves (Plectranthus scutellarioides) Using UV-Vis Spectrophotometry

ORGANIZATION & VOLUNTEER EXPERIENCE

- HR Administration & Data Integrity: Managed departmental documentation, confidential employee records, and database updates with high precision and strict privacy protocols.
- Operational & Schedule Governance: Coordinated executive calendars, interview logistics, onboarding workflows, and cross-functional meetings to optimize departmental efficiency.
- SOP & Policy Communication: Served as the key liaison for internal policy distribution, drafting official correspondence, and maintaining alignment with organizational standards.

- Emergency Medical Support: Provided first-aid, emergency triage, and health monitoring for event participants and committee members during university-wide academic and cultural activities.
- Medication & Supply Management: Managed inventory, storage, and distribution of emergency first-aid kits and OTC medications, ensuring proper documentation and safety standards.
- Health Assessment & Patient Care: Performed vital sign checks, basic health screenings, and immediate therapeutic interventions for minor injuries or acute conditions during events.

SKILLS & COMPETENCIES

- **Hard Skills:** CPOB (GMP) & CDOB (GDP) Compliance, CAPA & Deviation Management, ALCOA++ Data Integrity IQ/OQ/PQ Qualification, HPLC & UV-Vis Spectrophotometry, Aseptic Compounding & Biosafety Protocols, Antibiotic Stewardship (DDD & Gyssen Method), Pharmacovigilance (MESO/ADR Tracking), MS Excel & Google Workspace
- **Soft Skills:** High Attention to Detail & Accuracy, Analytical Thinking & Problem Solving, Interprofessional Collaboration, Regulatory & SOP Compliance, Crisis & Risk Management, Technical Communication, Adaptability & Stress Tolerance
- **Software & Tools:** Excel, Google Workspace, and SAP
- **Language:** Indonesian (Native), English (Professional Working Proficiency).
