

MARIA ANGGI TRIANIKA PELAWI

PHARMACIST | QUALITY CONTROL STAFF APPLICANT

Medan, North Sumatra | 081265573690 | anggitpmaria@gmail.com | LinkedIn: [linkedin.com/in/maria-anggi-trianika-pelawi-0a3bb52b5/](https://www.linkedin.com/in/maria-anggi-trianika-pelawi-0a3bb52b5/)

PROFESSIONAL PROFILE

Pharmacist graduate from Universitas Sumatera Utara with practical exposure to pharmaceutical manufacturing and QC-related activities during an industry internship. Basic understanding of GMP/CPOB and CPOTB principle. Gained exposure to laboratory problem-solving, analytical method validation, stability monitoring, and laboratory documentation. Gained academic experience in qualitative and quantitative analysis using HPLC, GC, UV-Vis spectrophotometry, and other laboratory instruments. Detail-oriented, analytical, and able to work collaboratively in a quality-focused environment. Willing to learn and develop in a Quality Control role. Willing to work on shifts or full time.

CORE COMPETENCIES

Pharmaceutical Quality Control | GMP/CPOB and CPOTB | Attention to Detail | Accuracy | Teamwork | Microsoft Word & Excel | Laboratory Analysis and Documentation | Basic Laboratory Exposure : UV-Vis Spectrophotometry, HPLC, Gas Chromatography, and Dissolution Testing | Raw Material & Product Testing Exposure | Analytical Method Validation Exposure | Analytical Testing | Qualitative and Quantitative Analysis | Laboratory Equipment | Regulatory Compliance Exposure | Quality & Compliance Awareness |

EDUCATION

Universitas Sumatera Utara — Pharmacist Professional Program | Feb 2025 – Apr 2026 | GPA 3.92/4.00
Universitas Sumatera Utara — Bachelor of Pharmacy | Aug 2019 – Jun 2023 | GPA 3.56/4.00

RELEVANT EXPERIENCE

Pharmacist Intern — PT Pharpros, Semarang | Sep 2025 – Oct 2025

- Gained practical exposure to CPOB/CPOTB, ISO 9001 and ISO 14001 implementation and pharmaceutical quality systems.
- Observed laboratory activities related to analytical method validation, dissolution testing, and stability monitoring.
- Gained exposure to QC laboratory testing of raw materials, packaging materials, bulk/intermediate, and finished products.
- Supported quality documentation, internal audit activities, quality risk management, and monitoring of raw-material records.
- Observed manufacturing and quality-control processes from raw-material weighing through packaging while following established procedures.

Pharmacist Intern — PBF Marga Nusantara Jaya, Medan | Apr 2025 – May 2025

- Observed and gained practical exposure to CPOB requirements, screened purchase orders, documented inbound/outbound records, and monitored storage conditions.

Pharmacy Technician — Apotek Mako Farma, Medan | Mar 2024 – Aug 2024

- Handled pharmaceutical supplies through receiving, storage, distribution, inventory control, and procurement monitoring.

LABORATORY & RESEARCH EXPERIENCE

- **Lecturer Research Project** — Universitas Sumatera Utara | Jul 2022 – Jun 2023 — Performed both qualitative and quantitative analysis of chemical substances, gathered and assessed analytical results, and participated in the publication of research in an international journal.
- **Instrumental Analysis Coursework** — Practical exposure to UV-Vis spectrophotometry, HPLC, gas chromatography, atomic absorption spectrophotometry, dissolution testing, and analytical method validation.

TECHNICAL SKILLS & LANGUAGES

Microsoft Office (Word, Excel, PowerPoint) | HPLC | Gas Chromatography | UV-Vis Spectrophotometer | Atomic Absorption Spectrophotometer | Dissolution Tester | Laboratory Documentation | Qualitative & Quantitative Analysis | Bahasa Indonesia (Native) | English (Professional Working Proficiency; TOEFL ITP 520)
