 3. Lampirkan Berita Acara Kerusakan.

Penggunaan
jasa
untuk

- Uji integrity sebagai bagian dari pelaksanaan Kualifikasi HVAC sesuai IK Kualifikasi HVAC (QA.3-IK/10.122.00).

Latar
belakang
permintaan

- Pengujian integrity dilakukan untuk memastikan bahwa HEPA filter tidak ada kebocoran, kerusakan, atau cacat pada media filter maupun pada pemasangan di housing melalui port upstream dan memastikan HEPA filter mampu menyaring partikel. Pengujian integrity merupakan bagian dari Kualifikasi HVAC. Kualifikasi HVAC harus dilakukan secara rutin setiap 1 tahun sekali.
- Dilakukan pengajuan alat dan jasa untuk melakukan integrity karena alat yang dimiliki oleh QA sedang rusak dan masih dalam proses perbaikan.
- Rincian jumlah HEPA yang harus dilakukan integrity adalah 12 HEPA di Unit 4 Lantai 2, 6 HEPA di R. Filling Vial Unit 1 Steril, dan 3 HEPA di Gudang Sentral.
- Surat penawaran terlampir.

General Terms & Conditions of Work Space

- 1 This price quoted includes the provision of the test Instrumentation and equipment necessary for the testing and certification. All instrumentation used is duly calibrated and is traceable to International Standards.
- 2 The relevant parties will have to make ready the facilities for our testing to proceed. Should there be a need for scaffoldings or ladders to access the measuring locations, they must also be made available.
- 3 This quote only consists of the Performance Testing only. Should there be a need for any remedial work for the Hepa Filter and/or fine-tuning of the system, it will be the responsibilities of relevant parties.
- 4 The actual performance testing will be conducted only once; the data will be the basis of our report. Our testing is restricted to not more than two (2) days. All efforts shall be made to complete the job within this period. Should there be any re-test to be conducted after the period due to unsatisfactory result not on our side, a separate quotation will be given.
- 5 Any other item/ work that is not specified in this quotation is excluded.
- 6 Our testing procedures will conform to the following Standards, Procedures and Recommended practices
 - NEBB Procedural Standards for Certified Testing of Cleanroom
 - ISO 14644-1:1999
 - IEST-RP-CC-006.3 Testing of Cleanroom
 - IEST-RP-CC-001.3 HEPA Filters
- 7 one (1) set of original test report will be submitted two (2) weeks upon completion of tests.
