

This
is more
than a
chemical

Top 100 Most Popular Laboratory Chemicals

Trusted laboratory chemicals backed by our
expertise and support in Indonesia

Top 100 Most Popular Laboratory Chemicals

Salts & Inorganics

Cat No.	Product Name	Pack Size
P-5880-53	Potassium Iodide, Certified AR for Analysis	500g
S-1280-48	Silver Nitrate, Certified AR for Analysis	100g
S/2040/53	Sodium Acetate Trihydrate, Certified AR for Analysis, Crystal, Fisher Chemical™	500g
207705000	Sodium peroxide, 96%	500g
A10909.14	Sodium tetraphenylborate, 99%	25g
196805000	Tin(II) chloride dihydrate, 97%	500g

Solvents

Cat No.	Product Name	Pack Size
A998-4	Acetonitrile (HPLC)	4L
C606-4	Chloroform (HPLC)	4L
D-4121-PB08	Dimethyl Sulfoxide, Certified AR for Analysis	500ml
232110025	Ethyl acetate, 99.5%, for analysis	2.5L
E/0650DF/17	Ethanol Absolute 99.8+%, Certified AR for Analysis, meets analytical specification of Ph.Eur., BP, Fisher Chemical™	2.5L
G-0600-17	Glycerol, 98+%, Extra Pure, SLR	2.5L
A452-4	Methanol (HPLC)	4L
C16779.K4	N,N-Dimethylformamide, ACS, 99.8+%	4L
A451-4	2-Propanol (HPLC)	4L
389390025	Water, for HPLC	2.5L

Surpassing performance and quality

Total solutions and capabilities tailored for all your needs.

From the simple organic synthesis to more complex protein characterizations, over 80,000 products from Thermo Scientific, Fisher Bioreagents, and Fisher Chemical are available. Trust in our products to take you to success right from the first step to the very end, no matter which application or industry you belong in.

Scan the flyers or brochures below to find out more.

Chemical solutions for pharmaceutical application and research

Laboratory reagents for food and beverage analysis

Laboratory essentials for your life science workflow

Chemical solutions and materials for the semiconductor industry

Analytical and testing solutions for the petrochemical industry

Energy storage and battery systems
