DESCRIPTION

PROPERTIES

Description

Our most classic pocket ball pen in historical colours is made of high-quality plastic.

The ball pen in the colour Navy captivates with a deep, saturated blue. The name of the colour was derived from the dark blue uniforms of the British Royal Navy officers in the 17th century. It makes us dream of the vastness of the sea and stimulates our imagination.

works with a high-quality heart-curve mechanism. It works particularly precise and does not click when the push button is pressed.

Our standard refills are available in black and blue, as well as with line widths of 0.8 mm, 1.0 mm and 1.2 mm. In addition, we offer a red refill with 1.0 mm line width.

Also, Kaweco offers clips in silver, gold, bronze and black suitable for the ball pen.

Properties

Writing System:	Ball Pen
