DESCRIPTION

PROPERTIES

Description

Our heavy pocket-sized ball pen made of high-quality brass with an individual touch.

The ballpoint pen measures just 10.5 cm in length and is equipped with a high-quality heart-curve mechanism, which is particularly precise and quiet.

The high-quality brass will develop a natural and individual patina specific to the user with daily use. Due to the high weight, the ball pen already presses slightly onto the paper by itself. This feature makes it possible for you to write longer and more comfortably. The ballpoint pen is equipped with a blue, 1.0 mm thick D1 refill.

1.0 mm and 1.2 mm. Besides, we offer a red pen with 1.0 mm line width. We recommend one of our clips for the Sport model or our Sport pouches made of fine leather for one or two pens.

Please note: This raw material will develop a patina during usage.
