Dear Mba Uta,

Sehubungan kami di kontak oleh pihak panitia (dr Ummu SpN) terkait permintaan dr Dodik SpN, ada beberapa hal yakni :

1. Waktu pulang awalnya tanggal 2 Mei hari Sabtu berubah menjadi 3 Mei hari Minggu, oleh karena itu adanya penambahan hari untuk rental mobil.
 2. Dari pihak merci tetap handle hotel 1 malam untuk dr Dodik, sedangkan pihak panitia handle hotel 2 malam
 3. Panitia jadinya akan handle tiket pesawat pulang dr Dodik beserta Istri, sedangkan pihak Merci akan handle tiket berangkat dr Dodik beserta Istri. Beliau request pesawat Garuda dari Semarang ke Makassar, saya lampirkan capture tiket sesuai request beliau dan KTP istri nya
- Mohon bantuannya agar bisa di infokan dan di sesuaikan ke purchasing

Terima kasih *Note: dr. dodik berangkat pada tanggal 30 April 2026 jam : 09-30*

WELCOME MESSAGES

Assalamu'alaikum Warahmatullahi Wabarakatuh
Greetings of peace to all of us.

We give thanks to Allah SWT for His abundant mercy and blessings, so that we can prepare for the 2026 National Scientific Meeting (PIN), which, God willing, will be held on April 29 - May 3, 2026 in Makassar.

The 2026 PERDOSNI Conference will serve as both a scientific forum and a networking event for neurologists from across Indonesia, featuring a series of activities, including symposia, workshops, and interactive forums. This event is expected to not only enhance knowledge and skills in the field of neurology but also foster meaningful collaboration opportunities.

To that end, we respectfully invite and open opportunities for sponsor partners to participate and support the organization of this event. Sponsorship support will not only help ensure the smooth running of the activities but also provide partners with the opportunity to introduce their products, services, and innovations to participants at the event.

We believe that with your support, PIN 2026 will be a success and provide broad benefits for both participants and sponsoring partners. We hope that this collaboration will be a step forward in advancing science, particularly in the field of neurology. We extend our gratitude for your attention and support.

Wassalamu'alaikum Warahmatullahi Wabarakatuh

Dr. dr. Jumraini Tammase, Sp.N, Subsp.NRE(K)
Head of the Department of Neurology, Faculty of Medicine, UNHAS

WELCOME MESSAGES

Assalamu'alaikum Warahmatullahi Wabarakatuh
Greetings of peace to all of us.

The world of medicine continues to experience rapid development, especially in the fields of knowledge and technology, including artificial intelligence, big data, and telemedicine. This has brought new changes to medical practice, including in the field of neurology. These advancements require medical practitioners to adapt, update their knowledge, and integrate innovations to ensure patient care is more effective, efficient, and focused on improving patients' quality of life. In the Indonesian context, the role of neurology is highly strategic. A healthy brain is the foundation of a strong nation, **"Healthy Brain, Strong Nation."** Therefore, advances in neurology not only impact individual patients but also contribute to human resource development and national resilience.

Inspired by this spirit, the Makassar Branch of PERDOSNI is organizing the 2026 National Scientific Meeting (PIN), which discusses the latest topics in the field of neurology. Through symposia, workshops, and interactive discussions, it is hoped that all PIN 2026 participants will be able to share the latest knowledge, strengthen professional networks, and foster collaboration across study groups (pokdi) for the advancement of health services in Indonesia.

The theme of PIN 2026 is: **"Neurology at the Forefront : Integrating Science, Technology, and Comprehensive Care."** This theme reflects the challenges of globalization and digital transformation, which require scientific innovation and modern technology to go hand in hand with humane and comprehensive services. Therefore, it is a great honor for us to welcome our colleagues from all over the country to attend this meeting, not only to enrich scientific knowledge, but also as a gathering to strengthen brotherhood and reinforce our shared commitment to improving the quality of neurological services in Indonesia.

Salama'ki' tapada salama'. (Welcome, may we all be safe)
