## Opening Remarks Chairperson of the Organizing Committee

With profound gratitude, we are pleased to announce that the 8<sup>th</sup> National Scientific Meeting on Mental Health, Addiction & Neuroscience (PINKAN) will be held in Semarang on July 3–5, 2026. This annual scientific event is initiated by the Institute of Mental Health, Addiction, and Neuroscience (IMAN), and this year, we in Semarang are honored to serve as the host.

The theme of the 8<sup>th</sup> PINKAN, "The Neuroscience Revolution: Redefining Modern Psychiatry, Addiction and Mental Health Care," has been chosen in response to the rapid advancements in neuroscience that have transformed our understanding of brain mechanisms, addiction, behavior, and clinical approaches in modern mental health care. These developments call for the integration of knowledge, interdisciplinary collaboration, and continuous updates in clinical practice.

Through a series of symposia, workshops, scientific discussions, and research presentations, the 8<sup>th</sup> PINKAN is expected to serve as a platform to broaden perspectives, strengthen academic and clinical collaboration, and formulate strategic steps in addressing the challenges of mental health services in Indonesia. We hope that this event will provide meaningful contributions to the advancement of knowledge and the improvement of service quality in psychiatry, addiction, and neuroscience.

We would like to express our sincere appreciation to all parties who have provided their support, including IMAN, our distinguished speakers, institutional partners, sponsors, and all members of the organizing committee who have worked diligently in preparing this event. May the 8th PINKAN be successfully conducted and bring valuable benefits to all participants and to the advancement of mental health sciences in Indonesia.
